- Understand and apply Company quality assurance standards
- Participate in Lean programs by supporting innovation and continuous improvement initiatives in all areas of the business
- Assist BAA to meet duty of care obligations for occupational health and safety and environmental protection by participating in EHS related activity
- Attending OH&S / EP training and take reasonable care for the health and safety

About you

- Trade qualification backed with experience
- Experience with metallic and composite materials working to high precision tolerances
- Proven experience in a production or assembly environment
- Literacy and numeracy skills to follow and interpret work instructions and engineering drawings
- Hand skills with a high level of attention to detail under repetitive conditions
- Ability to work independently or part of a diverse team towards a common goal and to agreed deadlines
- Effective communicator and listener
- Punctual, self-motivated and capable of working with initiative
- Enjoys working with hands and physical work
- Commitment to OHS procedures and exposure to quality systems
- Reliable and willingness to undertake shift work essential

To be considered, candidates will need to have full, unrestricted working rights for Australia.

Additional Information: This is an award position classified as an Aerospace Tradesperson 1. The successful candidate will be required to complete background checks including medical and is applicable to a 3-month probationary period.

About our benefits:

- Work on cutting edge projects
- Attractive remuneration and incentive scheme
- Access discounts for health insurance, travel and accommodation
- Salary packaging options available
- Training and career growth opportunities
- Health and wellbeing benefits including annual flu vaccinations and Employee Assistance Program

About us

Boeing Aerostructures Australia is Australia's leading designer and manufacturer of composite flight control components for commercial aircraft. We are renowned for our collaborative and supportive working environment and for the high calibre of our people.

We are passionate about improving peoples' lives through increasing global mobility with our iconic planes including the production of the 787, 737, 747 and 777 models.

At Boeing Aerostructures Australia, we are committed to creating an inclusive and incident and injury free workplace, where employees can realise their career goals and make a positive contribution to Boeing's success.

If this role is you and you're excited by the opportunity to be part of building something amazing, we welcome your application.

Boeing has implemented a new COVID-19 Vaccination Policy in Australia that requires all new Boeing Australia hires to show proof of being fully vaccinated from COVID-19, or have an approved medical exemption.
