

## **SWITCHBOARD ESTIMATOR - Tingalpa, Queensland**

We are seeking a skilled and detail-oriented Switchboard Estimator to join our team. As a Switchboard Estimator at Switch Box, you will play a crucial role in the initial phases of our projects by providing accurate and timely estimates for switchboard construction. The ideal candidate will have a strong understanding of electrical systems, excellent analytical skills, and the ability to collaborate with various teams to ensure successful project outcomes.

### **DUTIES AND RESPONSIBILITIES**

- **Estimation:** Accurately assess project requirements and specifications to prepare comprehensive cost estimates for switchboard construction projects.
- **Drafting Collaboration:** Collaborate with the drafting team to ensure that project drawings and plans align with estimated costs and project timelines.
- **Material Sourcing:** Identify and source materials required for switchboard construction, ensuring cost-effectiveness and adherence to quality standards.
- **Bid Preparation:** Prepare competitive bids for switchboard projects, considering all relevant factors and ensuring alignment with company objectives.
- **Communication:** Effectively communicate with internal teams, clients, and suppliers to gather necessary information and clarify project details.
- **Cost Monitoring:** Monitor project costs throughout the construction process, identifying any variations and working to resolve discrepancies.
- **Documentation:** Maintain accurate and organised records of estimates, project documents, and communication for future reference.

Experience in Electrical Estimating is an advantage, however those looking for an exciting opportunity to move off the tools are encouraged to apply.
